

Sacred Heart of Jesus Parish

Making a Place to Gather & Grow... Together

Since 1830, Sacred Heart of Jesus Parish has served the Juniata River Valley by celebrating the sacraments, proclaiming the Word, and ministering to those in need. For almost 200 years, Christ's love and light have been radiating from the corner of 3rd and North Dorcas Streets to the far reaches of Mifflin and Juniata Counties, and beyond. Our church, almost a century old, is the center of this holy stewardship, along with our school, the rectory, and the parish office.

In a recent survey to the parish, it was determined that our buildings are compromised by modern demands. We must invest in our facilities now so we can continue to support the mission of Sacred Heart of Jesus Parish for generations to come.

REFRESH
Our facilities

RENEW
Our spirit

REJOICE
In God's plan for our future

Our vision is to renovate and update our buildings to increase our useable spaces, make them safe, secure and accessible to everyone, and provide state of the art technology and amenities, such as:

- ▶ An expanded church narthex (entrance/lobby), an elevator and stairs leading to a newly renovated church basement, with room for meals and meetings
- ▶ ADA accessible entrances and bathrooms
- ▶ Security cameras, lighting, and doors
- ▶ Projectors/screens for presentations, increased Internet connectivity

As we **refresh** our facilities, we can **renew** our spirit of mission and ministry, better serving our parishioners and the surrounding community.

To make this vision a reality, we are calling upon each and every parishioner to pray and share their opinions on moving forward. We do not have cost figures at this point. However, before a capital campaign would begin we would review a budget plan with the parish for the project.

Let us rejoice in God's plan for our future in faith, fellowship and ministry!
